

SUPERIOR PERFORMANCE AND GREATER SUSTAINABILITY

Friendly Feel Duct Wrap with ECOSE Technology meets all the specifications and performance requirements for your projects. And it boasts exceptional quality and handling characteristics—great feel, low dust, quick recovery.

ECOSE Technology is a revolutionary new binder chemistry based on rapidly renewable bio-based materials rather than non-renewable petroleum-based chemicals such as phenol, formaldehyde, acrylics or artificial colors.

Knauf Friendly Feel Duct Wrap with ECOSE Technology... naturally from Knauf.
